Socialists Lauded By Citizens Union; Disloyalty Ignored Statement by W. T. Arndt Also Praises Hylan for Vetoing Bills Attacks Old Party Men the radical forces, but a majority of the conservatives as well—is with them, they say, because labor has had a bad deal from the very interests they are fighting. The whole disloyalty charge they dismiss as hypocritical pretence. Minnesota is at leasts 45 per cent industrial, and the league could not possibly win without the labor vote. This it believes it has got securely, because of the attitude of Governor Burnquist (who is running for renomination against Lindburgh) toward the striking street car employes recently, in which, it is contended, he overrode the principles of the War Labor Board and received an official rebuke from Washington for it. Certainly his action greatly embittered the industrial workers of the state, who are ready to vote against him and for Lindbergh on general principles.

Both Republicans and Democrats Censured for Work in the Legislature

The statement contains no summary of the Democratic members or the Republican members as a whole, but concerning the Socialists, the following

publican members as a whole, but concerning the Socialist, the following eulogy appeared:

"The Socialist members succeeded very generally in obtaining, sooner or later, denate and roll calls on the matters concerning which they took a decided stand. In fact, as between the two houses, the Assembly was this year by far the more deliberative body.

"Protracted discussion and long roll-calls were had in that house upon matters which were perfunctorily disposed of in the Senate. This was in large measure due to the close application to the work and the untiring energy of the Socialist minority. In the main it had a healthy effect upon the proceedings and made the Assembly sessions much more interesting for those seriously concerned with legislation.

"As the session advanced the bitter denunciation of the 'troublesome ten' by members who resented their attitude upon national questions practically ceased. This was due to recognition of the feet that these new cally ceased. This was due to recognition of the fact that these new members were generally acting intelligently and contributing substantially to the work of the house."

The fact is that toward the end of The fact is that toward the end of the session one of the Socialists was called a traitor by an upstate member who has a son fighting in France and a New York City man introduced a resolution calling for the expulsion of another Socialist for uttering alleged seditious remarks.

Following the announcement that Justice Cropsey of the Supreme Court had joined the Lewis forces there has been a rush of prominent Brooklynites to the Lewis headquarters.
